RACK&ROLL™ 8MA | RACK&ROLL™ 8P

High Load. Low Stress. No Drama.

Features

1. Wheels Channels

4. Flange Bearings

3. All-Rail Direct-Drive System

7. Side Carriage Member Bumpers

5. Side Carriage Members

6. Front and Rear Carriage Covers

9. Custom Anchor Plate

8. 1/8 HP DC Gearmotors*

*Provided with the Powered Electrical RACK&ROLL™8P

Benefits

1. Structural steel wheel channels designed to support 8,000 lbs each.
2. Dual Flange wheels for continuous rail guidance.
3. All-Rail Direct-Drive shafts eliminate distortion and provide greater traction.
4. Flange sealed ball bearings for superior longevity and protection against dust.
5. Side carriage members are constructed of "C" shaped structural steel profiles and corner braced for excellent carriage stiffness.
6. Front and rear carriage covers to protect chains and cables as well as for aesthetics.
7. Side member bumpers for additional end stop protection.
8. High starting torque and reliable DC gearmotors provided with the powered electrical RACK&ROLL™8P
9. Custom anchor plates for different shelving or racking dimensions.

8MA = Mechanical Assist

8P = Powered Electrical

Design and Capabilities

Load per Bay	8,000 lbs (3,630 kg)
Load per Carriage	8MA : 24,000 lbs (10,900 kg) 8P : 60,000 lbs (27,200 kg)
Bay Depth	Up to 5' (1.5m)
Bay Width	Up to 12' (3.6 m)
Carriage Length	Up to 50' (15.2m)
